Amy, thanks for meeting with me briefly on this a few minutes ago.

Shawn, hopefully you will hear this via internal communications but we thought it would be good for you to have this directly from me as well.

Let me know if you'd like to discuss, ok? Happy holidays to you and yours!!

Lora

Thank you for the comments we've received from EPA R3 so far. I think we are in good shape. If any one else wants to share any further feedback prior to finalization, please let me know as soon as possible. My best estimate for a target release date (and we all know I can be very wrong on that front) at this time is Tues or Wed of next week.

Lora
